Date of Preparation: 17 May 2012

Subject Device

Trade Name: **Site~Rite Prevue* Ultrasound System**

Classification Name: IYO 21 CFR 892.1560 Ultrasonic Pulsed Echo Imaging System
ITX 21 CFR 892.1570 Diagnostic Ultrasonic Transducers
Class II, Radiology

Predicate Devices

Trade Name: Site~Rite Vision* Ultrasound System

Classification Name: IYN 21 CFR 892.1550 Ultrasonic Pulsed Doppler Imaging System
IYO 21 CFR 892.1560 Ultrasonic Pulsed Echo Imaging System
ITX 21 CFR 892.1570 Diagnostic Ultrasonic Transducers
LLZ 21 CFR 892.2050 Picture Archiving and Communications System

Premarket Notification: K100402, concurrence date 05 March 2010

Manufacturer: Bard Access Systems, Inc.

Trade Name: Site~Rite* 6 Ultrasound System

Classification Name: IYO 21 CFR 892.1560 Ultrasonic Pulsed Echo Imaging System
ITX 21 CFR 892.1570 Diagnostic Ultrasonic Transducers

Premarket Notification: K071204, concurrence date 18 May 2007

Manufacturer: Bard Access Systems, Inc.

Subject Device

Trade Name: **Pinpoint* Gel Cap**

Classification Name: MUI 21 CFR 892.1570 Diagnostic Ultrasonic Transducer
Class II, Radiology

Predicate Devices

Trade Name: Embrace™ Gel Pad
Classification Name: MUI 21 CFR 892.1570 Diagnostic Ultrasonic Transducer
Premarket Notification: K072515, concurrence date 20 September 2007
Manufacturer: Orison Corporation

Trade Name: ScanTac™ Pad
Classification Name: MUI 21 CFR 892.1570 Diagnostic Ultrasonic Transducers
Premarket Notification: K031894, concurrence date 18 July 2003
Manufacturer: SONOTECH, Inc.

Subject Device

Trade Name: **Pinpoint* Needle Guide**
Classification Name: ITX 21 CFR 892.1570 Diagnostic Ultrasonic Transducer
Class II, Radiology

Predicate Device

Trade Name: Site~Rite* Needle Guide Kits and Site~Rite* Probe Cover Kit
Classification Name: ITX 21 CFR 892.1570 Diagnostic Ultrasonic Transducers
Premarket Notification: K042445, concurrence date 19 October 2004
Manufacturer: Bard Access Systems, Inc.

Device Description - Site~Rite Prevue* Ultrasound System

The **Site~Rite Prevue* Ultrasound System** is a portable device that features real-time 2D ultrasound imaging. Additional features include compact size, simple user interface, and various calculations. The system may incorporate various accessories, including an upright stand, A/C adapter, needle guide/gel cap kits, etc. The system includes USB support for storage devices with no external power connections (e.g., USB flash drive).

Device Description - Pinpoint* Gel Cap

Bard Access Systems, Inc.'s, **Pinpoint* Gel Cap** is a sterile, single use accessory for use with the **Site~Rite Prevue* Ultrasound System**. The device is intended for use as an ultrasound coupling medium. This device attaches to the ultrasound transducer and contains a hydrogel pad that interfaces directly with the transducer face and the patient's skin to provide an acoustic coupling pathway. The device contains a feature that accommodates attachment of the **Pinpoint* Needle Guide**. A removable lid protects the hydrogel pad during transit and while the clinician is attaching the device on the **Site~Rite Prevue*** ultrasound transducer.

Device Description - Pinpoint* Needle Guide

The **Pinpoint* Needle Guide** is a sterile, single use accessory for use with ultrasound. The device is intended to provide guidance for a needle to intersect an ultrasound beam at a fixed distance below the skin to assist the medical practitioner in placing the tip of the needle in a specific structure. The **Pinpoint* Needle Guide** attaches to the **Pinpoint* Gel Cap** which attaches to the ultrasound probe. Each needle guide accommodates multiple vein depths.

ISO 11137-3:2006/(R)2010

Sterilization of health care products - Radiation - Part 3:
Guidance on dosimetric aspect

The subject devices met all pre-determined acceptance criteria and demonstrated substantial equivalence as compared to the predicate devices.

**Non-Clinical
Comparative
Testing**

**Summary of
Acoustic Testing
(mean values)**

| Test Characteristic | Pinpoint* Gel Cap | Aquasonic 100 Ultrasound Trans. Gel |
|------------------------------------|-------------------|--|
| Sound Velocity (m/s) | 1502 | 1558 |
| Acoustic Impedance (MRayls) | 1.526 | 1.641 |
| Attenuation 5 MHz (dB/(cm MHz)) | 0.0657 | 0.0792 |

**Summary of
Substantial
Equivalence**

Based on the indications for use, technological characteristics, and safety and performance testing, the subject **Site~Rite Prevue* Ultrasound System, Pinpoint* Gel Cap and Pinpoint* Needle Guide**, met the minimum requirements that are considered adequate for its intended use and is substantially equivalent in design, principles of operation and indications for use to the predicate devices, Site~Rite Vision* Ultrasound System, Site~Rite* 6 Ultrasound System, Embrace™ Gel Pad, ScanTac™ Pad, and Site~Rite* Needle Guide Kits and Site~ Rite* Probe Cover Kits respectively.

Re: K120882

Trade/Device Name: Site~Rite Prevue*, Pinpoint* Gel Cap and Pinpoint* Needle Guide
Regulation Number: 21 CFR 892.1560
Regulation Name: Ultrasonic pulsed echo imaging system
Regulatory Class: II
Product Code: IYO and ITX
Dated: May 17, 2012
Received: May 18, 2012

Dear Mr. Job:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into class II (Special Controls), it may be subject to such additional controls. Existing major regulations affecting your device can be found in Title 21, Code of Federal Regulations (CFR), Parts 800 to 895. In addition, FDA may publish further announcements concerning your device in the Federal Register.

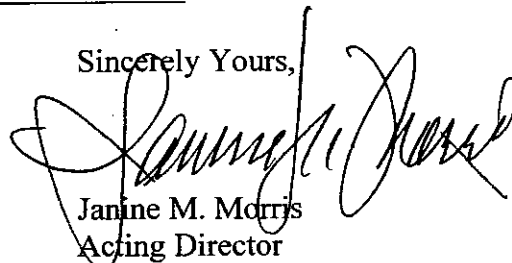

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Parts 801 and 809); medical device reporting (reporting of

medical device-related adverse events) (21 CFR 803); and good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820). This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Parts 801 and 809), please contact the Office of *In Vitro* Diagnostic Device Evaluation and Safety at (301) 796-5450. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21 CFR Part 807.97). For questions regarding the reporting of adverse events under the MDR regulation (21 CFR Part 803), please go to <http://www.fda.gov/MedicalDevices/Safety/ReportaProblem/default.htm> for the CDRH's Office of Surveillance and Biometrics/Division of Postmarket Surveillance.

You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 796-7100 or at its Internet address <http://www.fda.gov/cdrh/industry/support/index.html>.

Sincerely Yours,

Traditional 510(k) Premarket Notification

Indications for Use

510(k) Number (if known): K120882

Device Names: Site~Rite Prevue*, Pinpoint* Gel Cap and
Pinpoint* Needle Guide

Indications for Use:

The Site~Rite Prevue* Ultrasound System is intended to provide ultrasound imaging of the human body. Specific clinical applications include:

- Adult Cephalic
- Neonatal Cephalic
- Pediatric
- Peripheral Vessel

The gel cap is intended for use as an ultrasound coupling medium for use with the Site~Rite Prevue* Ultrasound System. The device is intended for use with pediatrics and adults.

The needle guides are intended to provide guidance for a needle to intersect an ultrasound beam at a fixed distance below the skin to assist the medical practitioner in placing the tip of a needle in a specific structure. This device is intended for use with pediatrics and adults.
